

Industry 4.0 Communication Platform

Personalize
Tune in to What Matters Most

Collaborate
Engage Employees – Drive Accountability

Connect
All of Your Data Sources – Wherever You Are

Better Communication leads to Better Decisions and Better Results.

How SQUEAKS Works for You.

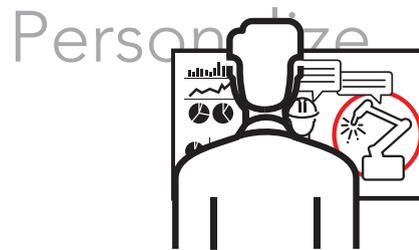

Personalize

In manufacturing, communication is serious business. With downtime measured in thousands of dollars per minute – time is money. In addition, organizational priorities such as productivity, quality and employee safety cannot be reinforced enough.

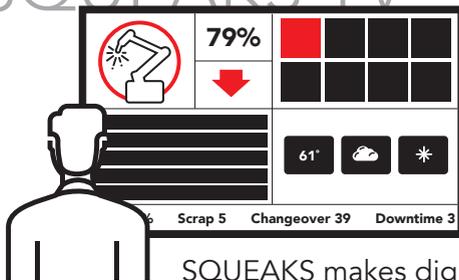

SQUEAKS puts you in control of the overwhelming amount of data in your plant by giving you the ability to tune in to what matters most, saving time and money. SQUEAKS gives you the power to see everything happening in your plant along with flexibility to create personalized views.

SQUEAKS allows you to customize the information and alerts you receive. Plant performance metrics and process related issues are linked to pertinent messages, giving you an in-depth picture of what's happening.

The SQUEAKS mobile app gets the answers you need, wherever you are, giving you the freedom to be on the move. now.

SQUEAKS TV

SQUEAKS makes digital signage for manufacturing easy – turning low cost, smart TVs into powerful production displays. SQUEAKS consolidates multiple sources of information (dashboards, web pages, weather app, MS SQL Data Sets, IP camera feeds, etc.) into one view.

The rotation of channels and associated content can be linked to time schedules or event/alarm triggers.

SQUEAKS keeps everyone connected and on the same page. And with SQUEAKS, machines are part of the conversation.

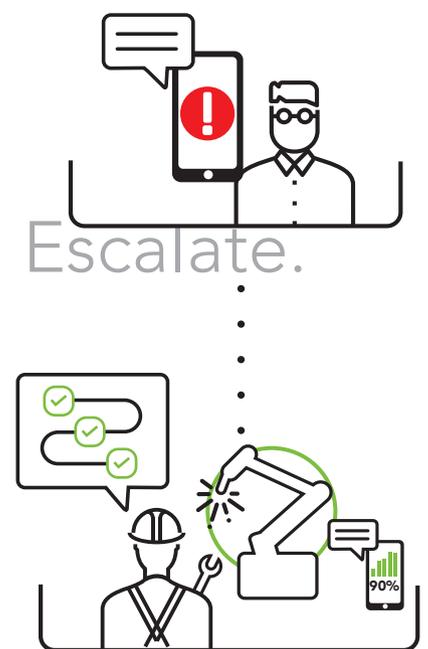

Collaborate

SQUEAKS answers the question “now what?” when an important event occurs – engaging employees to act swiftly, promoting teamwork and driving accountability. In a transparent manner, SQUEAKS lets you know everything is covered.

SQUEAKS drives employee engagement while instilling a greater sense of purpose and contribution. Teams and individuals are empowered to act swiftly on events that demand attention. Communication is prioritized based on what’s important now and directed to appropriate employees in a transparent manner that promotes teamwork.

SQUEAKS ensures the adherence of user-defined workflows that make clear the actions to be taken, from start-to-finish after a critical event. Ownership is clarified and progress verified at each step along the way. Messages from SQUEAKS demand attention.

With SQUEAKS, you can be sure that nothing important is going to slip through the cracks. If standardized workflows are not completed on-time, SQUEAKS escalates (gets louder) serious concerns to higher levels of management, creating a heightened sense of urgency until everything is under control.

Connectivity & Convenience Built-In

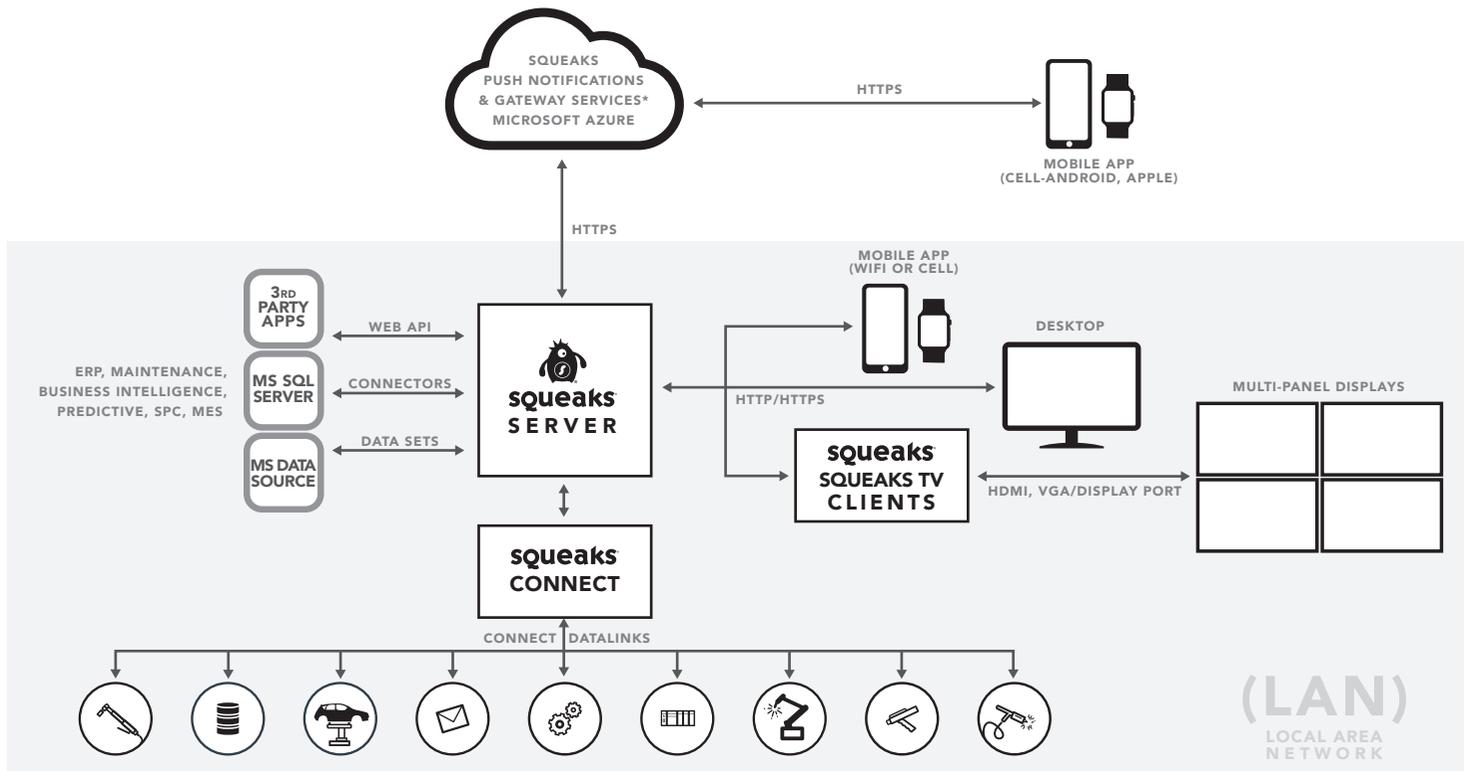

With SQUEAKS, people and machines communicate as-one.

SQUEAKS is more than just a better way to communicate in manufacturing.

SQUEAKS is an industrial communication platform that delivers out-of-the-box connectivity to all of your Data Sources (machines, 3rd party apps, sensors, systems, and Industry 4.0 technologies). SQUEAKS taps into the data, uncovering value and unleashing productivity by making the vast amounts of data in your plant, small and actionable. With SQUEAKS, real-time data from machines is unlocked and becomes part of the conversation – allowing you to monitor and control production processes.

SQUEAKS directs valuable information across modern, commercially available communication technologies – from the 2" smart watch up to the 200" multi-panel displays – making it easy for you to stay connected to what matters most – wherever you are.

Connectivity Made Easy SQUEAKS Integration & Network Architecture

*SQUEAKS GATEWAY SERVICES AND PUSH NOTIFICATIONS CAN BE ENABLED/DISABLED INDEPENDENTLY.

It's What Matters.
